

Cornell Solutions MOBILE MEDIA VEHICLE SIDE FOLDING DOOR

Let us exceed your expectation!

AN ISO 9001:2000 REGISTERED COMPANY

Cornell 's Mobile Media Vehicle Side Folding Door opens horizontally and stacks at either or both ends of the opening.

Curved tracks are available allowing the doors to recess into compartments that are perpendicular to the side of the vehicle.

Side folding closures provide durable security and protection for large media monitors and screens.

Contact your Cornell Representative for additional product information and unit pricing. We look forward to hearing from you and providing your firm with a solution to your
